

DRIVEN BY AIR.

# PRESTIGE 1/2" Impact Wrench

This robust tool provides optimum performance and value

Featuring a durable composite casing with forward and reverse modes, this PRESTIGE 1/2" Impact Wrench is fast, strong and exceptionally robust.

Designed for safe and comfortable use, with a non-slip, soft grip rubber handle for protection against the cold compressed air, and a three-stage speed adjustment.

Despite reaching a speed of 7,000 RPM with a working pressure of 90 PSI, this robust impact wrench benefits from low noise and vibration.

The twin hammer mechanism provides more power and smooth balanced blows, while the high performance motor delivers 1,400 Nm torque.

This is a sturdy, user-friendly product that would suit both apprentices and experienced engineers alike and is ideal for use in heavy automotive and truck work, such as tyre changing, shock, spring work, front end work, and anywhere else extra powerful tools are needed.

A HORNGROUP BRAND

DRIVEN BY AIR.

### Key Features & Benefits

- Forward and reverse modes
- High maximum torque of 1,400 Nm
- Three stage speed adjustment
- High performance twin hammer mechanism
- Low vibration
- Durable composite casing
- Non slip soft grip rubber handle, protects against cold air providing user comfort

### Specification

Part No:	APP210S
Drive Size:	1/2"
Max. Torque:	1,400 Nm
Free Speed:	7,000 RPM
Vibration:	4.66 (m/s <sup>2</sup> )
Sound:	92 dBa
Working pressure:	90 psi
Air consumption:	6.5 CFM
Inlet/Outlet Size:	1/4"
Hose I.D:	3/8"
Weight:	2.1 kg
Length:	185 mm

PCLDAT084 V1

PCL is the world leader in the design and manufacture of tyre inflation and compressed air products.
