

DRIVEN BY AIR.

# AutoPortair Mobile Tyre Inflator

## Compact, Robust Tyre Inflator for High-Volume Workspaces

The AutoPortair Mobile Tyre Inflator is ideal for service bays, garages, car showrooms, emergency vehicles, and workshops - anywhere space is tight and access is limited. Built for durability and ease of use, with 10 bar maximum inflation pressure and a 6 litre compressed air tank, making it perfect for high-demand environments like petrol stations.

Its robust design, with a grey protective cover, ensures long-lasting performance with minimal maintenance. The large, 160 mm dial display ensures quick and accurate pressure readings, while the 1.25 metre hose equipped with an angled stem hold-on connector makes it easy to access to hard-to-reach tyre valves.

Additionally, the AutoPortair Inflator is designed for maximum efficiency with minimal downtime. With a wide range of spare parts readily available and quick replacement options, you can be assured that your inflator will stay operational even in the busiest of environments.

A HORNGROUP BRAND

DRIVEN BY AIR.

### Key Features & Benefits

- Bar / psi pressure units
- Easy-read 160mm dial
- 6 litre compressed air tank
- Clear impact-resistant toughened glass dial cover
- Powder coated outer casing giving a hard durable finish
- Easily detachable 1.25m hose
- PTB type approved
- Spare parts available

### Technical Specification

Part No.	P10H02
Maximum inlet pressure	12 bar / 174 psi
Maximum inflation pressure	10 bar / 140 psi
Reading accuracy	0.1 bar / 2 psi
Double scale	bar / psi
Hose length	1.25 m
Tyre valve connection	Angled stem twin hold-on

### Dimensions

Height	630 mm
Width	200 mm
Depth	320 mm
Weight	6.8 kg

PCLDAT088 V1

PCL is the world leader in the design and manufacture of tyre inflation and compressed air products.
